

GALLERY / LOFT

MATERIAL EXPLORATION

SUMMER KIM INTR233 INTERIOR STUDIO II WINTER 2020

CLIENT

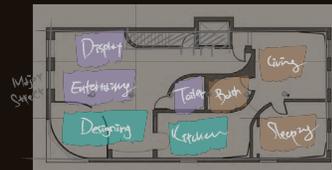

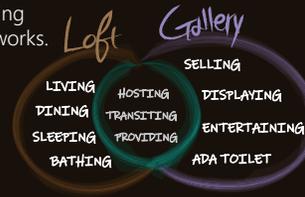

A young contemporary artist couple who wants to transform their loft into living and gallery space. Their main artwork is organic shape lamp made with paper, each lamp is unique in shape and sizes.

The client wants the space to connect the visitors to their work and provide the experience of living with the artwork. The client also wants to have privacy in the living space but easily open up for private guests.

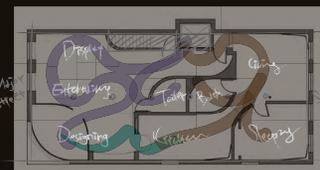

PROJECT

Geometric structure throughout the building emphasizes the organic shapes of the artworks. Private and public spaces are separated but have easy transition through the kitchen.

The structure built by explored material provides not only a space to gather but also atmospheric changes.
